# **Teachers Prepared**

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Academic Major

#### THIS PAGE INCLUDES:

- >> Teachers Prepared by Subject Area
- >> Teachers Prepared by Academic Major

# **Teachers Prepared by Subject Area**

Please provide the number of teachers prepared by subject area for academic year 2018-19.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

#### What are CIP Codes?

No teachers prepared in academic year 2018-19

If your program has no teachers prepared, check the box above and leave the table below blank (or clear responses already entered).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<a href="https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55">https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55</a>).

### **Teachers Prepared by Academic Major**

Please provide the number of teachers prepared by academic major for academic year 2018-19. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. (§205(b)(1)(H))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education—Chemistry" category.

#### What are CIP Codes?

Do participants earn a degree upon completion of the program?

• Yes

No teachers prepared in academic year 2018-19

If your program does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or **clear responses already entered**).

Yes No

8. Describe your institution's most successful strategies in meeting the assurances listed above:

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

NNMC COE Conceptual framework ensures effective teaching and learning for all learners. The College addresses the following learning outcomes: ability to communicate clearly and effectively, ability to think critically and analytically through inventive & creative means; demonstrate commitment to address cultural, social and ethical responsibilities and, demonstrate proficiency in the use of current technology and innovation. COE field placement office ensures partnerships with local school districts including public, private, charter, and BISD schools. NNMC College of Education has implemented these strategies to assure that candidates are receiving knowledge and gaining skills in effective teaching and learning of diverse learners both academically and socio-economically: 1. All candidates take courses that focus on diversity—The NMPED teacher competencies have a strong focus on diversity embedded in coursework, ED 450 Pedagogy (researching disability categories covered under IDEA), ED 201 Foundations (IDEA laws and concepts like free appropriate public education and LRE),ED 220 Ed Psych (students become familiar with SPED categories, and learn about FBA), these are relevant also to low income students and help avoid misdiagnosis of English Language Learners. 2. The program ensures that all candidates

### **Annual Goals: Mathematics**

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

#### (§205(a)(1) (A)(i), §205(a)(1)(A)(ii), §206(a))

Please note that the goals you set last year are not pre-loaded into your report because the Department's changes to wording of the questions in this section make them incompatible for pre-loading from last year's data. Next year, your goals will be pre-loaded into your report based on the goals you enter this year.

In order to complete this section, you may find it helpful to review your goals in your 2019 report. ### Report Progress on Last Year's Goal (2018-19)

1. Did your program prepare teachers in mathematics in 2018-19?

If no, leave remaining questions for 2018-19 blank (or clear responses already entered).

- Yes
- No
- 2. Describe your goal.

The goal for the Department of Education was to recruit and train three teachers with a concentration in math. The goal was not met partially met. One student was recruited to earn his math concentration and is currently in the Elementary Education program with a projected graduation date of Spring 2021.

- 3. Did your program meet the goal?
  - Yes
  - No
- 4. Description of strategies used to achieve goal, if applicable:

	Strategies used to recruit students interested in teaching math included active recruitment of students. The support provided to the students included the placement as a math tutor for students. A plan to support the socialization of the student within the department included a designated area to tutor other students in math.
5.	. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:
	While the BA traditional program did not meet the specific goal, the inclusion of recruiting students with a BA degree that were endorsed to teach math through the Alternative Licensure Program has met with more success. A lesson learned is that the recruitment of teacher candidates that can earn a concentration in math will need to include funding to help pay for tuition. The difference in pay for a teacher vs. salaries at the Los Alamos Lab is great, there has to be additional incentives.

The goal for the Department of Education was to recruit and train three teachers with a concentration in math. The goal was not met partially met. One student was recruited to earn his math concentration and is currently in the Elementary Education program with a projected graduation date of Spring

Continue the active recruitment of students interested in teaching math- recruit 5 students. Actively research and write one grant that will provide additional funding to serve as an incentive for students to complete the BA in Elementary Education with a teaching concentration in math.

### **Assessment Pass Rates**

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact Westat's Title II Support Center and your testing company representative.

### **Teacher Training**

- 1. Provide a description of the activities that prepare general education teachers to:
  - a. Teach students with disabilities effectively

NNMC COE Conceptual framework ensures effective teaching and learning for all learners. The College addresses the following learning outcomes: ability to communicate clearly and effectively, ability to think critically and analytically through inventive & creative means; demonstrate commitment to address cultural, social and ethical responsibilities and, demonstrate proficiency in the use of current technology and innovation. COE field placement office ensures partnerships with local school districts including public, private, charter, and BISD schools. NNMC College of Education has implemented these strategies to assure that candidates are receiving knowledge and gaining skills in effective teaching and learning of diverse learners both academically and socio-economically: 1. All candidates take courses that focus on teachaing students with disabilities—The NMPED teacher competencies have a strong focus on diversity embedded in coursework, ED 450 Pedagogy (researching disability categories covered under IDEA), ED 201 Foundations (IDEA laws and concepts like free appropriate public education and LRE),ED 220 Ed Psych (students become familiar with SPED categories, and learn about FBA), and ECED 3304 Young Children with Diverse Abilities, these are relevant also to low income students and help avoid misdiagnosis of English Language Learners. The Early Childhood program includes a strong focus on the identification and working with students and families that may have a disability. 2. The program ensures that all candidates are placed in diverse settings while enrolled in the program.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

While working with students with disabilities is woven throughout the entire curriculum, there is one specific course that are required for all students in the General Education program- SPED 475- You will focus on teacher knowledge and application skills in teaching curricula aligned with Common Core State Standards. You will explore areas of individualized modifications and/or accommodations when the general education curriculum is not appropriate. You will address instructional strategies in meeting the needs of the special learner with transition as a major component, with emphasis on the application of technology to support teaching and learning. You will address and integrate the Individual Education Plan (IEP) throughout the learning process. The Early Childhood program is strongly focused on the identification and working with students and families with disabilities.
